JOSEPH BERGER
Mayor

April 8, 1982

Mr. John Piskulich
Metropolitan Sewer District
2000 Hampton Avenue
St. Louis, Missouri 63110

Dear John:

The recent cleaning of debris, etc. from the Moline Creek has certainly improved the appearance of the Creek and the areas adjacent to the same. Noteworthy is the fact that so far this spring we have had no incidence of basements being flooded. I would like to think that the cleanup was instrumental in helping to relieve a continuing nuisance and hardship of the residents. I certainly hope this will become an on-going policy of M.S.D. until such time as the major Moline Creek improvement is undertaken.

On behalf of myself and the residents living in the close proximity to the Creek and the tributaries I sincerely thank you and M.S.D. for a job worthwhile and well done.

Sincerely,

Joseph Berger
Mayor
